14. ADJOURNMENT

The regular meeting of the chapter was held on February 16 at the Cathay House with President A. H. Hargreaves in the chair. The meeting was called to order at 7:30 p.m.

The minutes of the last meeting were adopted as read.

There was no business discussion following.

The speaker, Mr. C. P. Lentz, of the Division of Applied Biology N.R.C., was introduced by Jake Klassen. Mr. Lentz gave a very interesting talk on some of the latest methods of freezing meats. Our speaker stressed the importance of the appearance of frozen fowl insofar as marketing value was concerned. The new liquid immersion type of fast freezing was explained and how this type of freezing lends itself to assembly line processing of fowl. Mr. Lentz indicated that a great deal of work was in store for the refrigeration engineer in perfecting this relatively new method of fast freezing.

The speaker was thanked by W. Robinson.

The meeting was adjourned at 10:40 p.m. on a motion by N. Kirby seconded by John Partington.

A social hour followed.
