## REGION II CRC MEETING - HALIFAX, N.S.

MAY 19-21, 1982

What is a CRC and why should anyone other than the delegate and alternate participate? The Chapter's Regional Committee meeting is an opportunity for any chapter member who may be interested to discuss chapter activities with members from other chapters in our region. Workshops are organized for Friday, May 21, specifically for this purpose under the headings of Membership, Education, Energy Management and General Chapter Operations.

A particular invitation is extended to Committee Chairmen to participate in these functions. Last year, nine of our chapter members attended these sessions at the CRC in Montreal. Please let us know if you plan to attend this function in May - more next month.
