**Evening Program** (8:00-9:00)

---

Program: Hospital Food Services (HFS) Design Build  
Speaker: Marc Chiasson, Mechanical Engineer and Project Manager - Genivar Consulting Group in Ottawa

- Cathy Godin introduced the speaker.
  - Mr. Marc Chiasson described the Hospital Food Services plant, located at 1010 Dairy Drive. He informed that the CFIA (Canadian Food Inspection Agency) protects the quality of food but there are no standards in the food processing. CFIA mainly focuses in the animal health, processing and quality, where it has established standards. With the need for Just in time food processing, large food processing facilities such as this are required. Mr Chiasson presented various aspects of the design, as below:
    - Standards
      - CFIA focused on meat processing
      - No applicable standards
      - Susceptible to inspector request
    - Design Guidance
      - Good Engineering Practice
      - Supplier Input
      - Client Feedback
      - Ontario Building Code
      - ASHRAE Standards
      - Industrial Ventilation Standards
- Mr Chiasson described the advantages of design built and informed of the main requirements of the design, including, Cleanliness, Air Flow, No Insects, Sanitary Hygiene, and Low Contamination risks. He informed of the high cost of the facility and of the ice building for food freezing using a CIMCO plant and steam for heat. He also informed that there was no heat recovery.
- Cathy Godin thanked our guests for their presentation and presented them with gifts.

- 
- Jason MacMurdo reminded all present the next meeting is October 21, 2003.
  - With no other business at hand, Jason MacMurdo adjourned the meeting 9:15pm.

Motion to Adjourn by Tony Doyon and seconded by Gemma Kerr
